SHEENS OF THE FUTURE

by Amelia Rodriguez

What is next for the cabinetry industry? Panel product with all the sheens you can imagine. With a functional, durable finish that is soft to the touch, the UltraMatte Collection will provide an excellent design element to any space. We are now proud to offer this new panel product from Premier Eurocase! The UltraMatte has a top hardcoat protectant for ideal scratch resistance. It has many color options that are UV stabilized, and the anti-fingerprint properties make this product the perfect choice for your next project! Looking for more of a gleam? The Reflekt Collection offers the most scratch-resistant, high-gloss acrylic on the market as well as impeccable surface consistency and clarity in both standard high-gloss and metallic finishes.

REFLEKT - HIGH GLOSS ACRYLIC

ULTRAMATTE - ACRYLIC

REFLEKT - METALLIC ACRYLIC

Need assistance on deciding if this product is right for your project?

Reach out to one of our in-house designers for the full run-down on all our finish options.

We will be happy to help you make a well-informed decision while putting your mind at ease.

PROJECT OF THE MONTH

DECORATIVE MOOD LIGHTING

EDGY DOOR PROFILES

by Your Stoll's Woodworking Team

This month's project encouraged us to take new, innovative steps in function forward thinking and pushed us to create new door profiles. Our clients approached us with an inspiration photo of an edgy kitchen that had slab doors with a bevel on the rim. We could not wait to design and fabricate this custom door throughout their project.

With the inspiration in hand, our team of designers helped cultivate a functional home, starting with the kitchen cabinetry. Every inch of the space was thought of and thought through, from the importance of the kitchen's flow while cooking, down to the size of the drawer utensil dividers. A baking zone with a pop-up mixer, pocket doors for the coffee station, and lighting, lots of fabulous lighting, are just a few of their specialties!

We were given this wonderful opportunity through one of our great contractors, Mike Souligne. His impeccable workmanship and flexibility have always been a pleasure to work with!

WE INSIST UPON PERFECTION - THAT'S WHY WE CHOSE A CNC

by Philip Stoll - CNC Operator & Specialist

Here at Stoll's, CNC machining has changed the way we work. With incredible precision and cut quality, the CNC has led to increased production. This machine allows us to produce items that we previously would have had difficulty offering.

We are proud to highlight the many integrated and seamless pull options we provided in past projects that were only possible with a CNC.

CNC PRECISION

OUTDOOR LIVING

by Roman Stoll

Looking to build or update your outdoor space? We now offer finely crafted, powder-coated aluminum cabinetry! These storage solutions are available in various models and sizes, ensured to fit your space. We have multiple color options that can be mixed and matched to create your unique look. As always, we insist on having soft-close doors and drawers in all applications so your product lasts for years to come!
